PROJECT MANAGER POSITION
Full time, fixed term contract
(Experience required)

Brixton Metals Corporation is focused on the discovery, exploration and development of high-grade silver and gold deposits within the America’s to feasibility. Brixton Metals’ strong management team has a proven record of success in building companies from the ground up and aims to unlock wealth for shareholders through the drill bit and M&A activities.

Brixton wholly owns four (4) projects in Canada and the USA:

- The Thorn Gold-Silver Project in British Columbia;
- The Atlin Gold Project in British Columbia;
- The Hog Heaven Silver-Gold Project in Montana;
- The Langis-Hudson Bay Silver-Cobalt Project in Northeastern Ontario.

We are seeking a Project Manager to fill a full-time, fixed term contract position (with possibility of extension for the right incumbent) responsible for managing the Corporation’s geological exploration programs from our Vancouver office and on-site at our seasonal camps. This position reports to the V.P., Exploration.

The ideal candidate has previous experience in project management in the mining or mineral exploration sector. The role involves coordinating with and overseeing work performed by drillers, contractors, consultants and employees. When situated at our seasonal camps, the incumbent will address issues on-site, while enforcing the Corporation’s policies and procedures, as well as overseeing the camp catering, maintenance, safety and environmental matters. Logistics planning and staff rostering is a key role when camps are in operation. Strong budget planning & management, including review & approval of invoices and daily budget reporting, are absolutely integral to this position. The incumbent will work and collaborate with local communities and First Nations.

The successful candidate will possess the following qualifications:

- At least 2 years project management experience (required) plus past mineral exploration and/or mining experience;
- Previous experience in successful budget management (required);
- Exceptional organizational and time management skills (required);
- Certified PMP (preferred);
- Previous transportation & logistics experience;
- Experience receiving, reviewing and overseeing contracts with an eye for detail;
- Strong leadership skills and professionalism, as a significant part of the role involves leading and working with personnel in office and in the field;
- Proficient in the use of Microsoft Office Suite;
- Strong problem solving skills;
- Accountable and dependable;
- Ability to make decisions independently when required; and
- Energetic with a strong ability to multitask in a fast-paced environment.
The position will start as soon as possible.

How to apply: Kindly forward your resume with a cover letter via email to careers@brixtonmetals.com, using the subject line “Project Manager”.
