

Full-Time Senior Geologist

Brixton Metals Corporation is a publicly traded (TSXV: BBB) (OCTQB: BBBXF), Canadian mineral exploration company focused on the advancement of its copper-gold-silver exploration projects. Brixton wholly owns four exploration projects in BC, Ontario and Montana.

Our team is seeking a **Full-Time Senior Geologist** reporting directly to the Exploration Manager.

The duties and responsibilities of the Senior Geologist include, but are not limited to, the following:

- Develop and increase the understanding of the exploration projects.
- Participate in drill hole and development planning.
- Interpretation of all geological data-sets and geochemical analysis.
- Collaborate with team members on target generation and ranking exploration priorities.
- Collaborate with team members to assist with data management requirements across various projects.
- Program planning as it relates to design, budget and execution of field exploration programs (geochemistry, geophysical surveys).
- Work with other geologists in the completion of computerized mapping and models.
- Manage and provide technical support to field exploration staff.
- Prepare and update the drill hole database, daily geology reports, and other records (including Assessment Reports).
- Train and lead mid-level to junior geologists.
- Conduct surface geological mapping and geochemical sampling.
- Assist in the preparation of maps, promotional materials and corporate and technical presentations.
- Perform additional duties as required.
- Demonstrate awareness and commitment to health, safety, community and environmental protection in keeping with Company goals and objectives.

QUALIFICATIONS

- B.Sc. Degree in Geological Sciences or Equivalent.
- Minimum of 5 years relevant experience in mineral exploration with experience in porphyry and epithermal systems.
- Experience with GIS and Microsoft software.
- Previous experience supporting drill programs.
- Professional registration with P.GeO designation in good standing is require.
- Experience with Leapfrog and ioGAS software is considered an asset.
- Obtain and maintain Mine Manager certification (British Columbia).

ADDITIONAL INFORMATION

- Field work location is a remote camp only accessible by air.
