A MULTI-GENERATIONAL OPPORTUNITY

MARCH 2025

SAFE HARBOUR STATEMENT

Information set forth in this presentation involves forward-looking statements, including but not limited to comments regarding planned drilling and other exploration, identification of new targets, timelines, predictions and projections. Forward-looking statements are statements that relate to future, not past, events. In this context, forward-looking statements often address expected future business and financial performance, and often contain words such as "anticipate", "believe", "plan", "estimate", "expect", and "intend", statements that an action or event "may", "might", "could", "should", or "will" be taken or occur, or other similar expressions. By their nature, forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements, or other future events, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, among others, the following risks: the need for additional financing; operational risks associated with mineral exploration; fluctuations in commodity prices; title matters; and the additional risks identified on the Company's website or other reports and filings with the TSX Venture Exchange and applicable Canadian securities regulators. Forward looking statements are based on the Company and its management's good faith assumptions relating to the financial, market, regulatory and other relevant environments that will exist and affect the Company's business and operations in the future. Forward-looking statements in this presentation are not guarantees or predictions of future performance. Forward-looking statements are made based on management's beliefs, estimates and opinions on the date that statements are made, and the Company undertakes no obligation to update forward-looking statements if these beliefs, estimates and opinions or other circumstances should change, except as required by applicable securities laws. Investors are cautioned against attributing undue certainty to forward-looking statements.

Mr. Gary R. Thompson, P. Geo., Chairman, President and CEO of Brixton, is the QP who approved the scientific and technical information in this Presentation.

OUR TEAM

GARY THOMPSON, P.Geo.

CHAIRMAN, President & CEO

- 27 years in resources including 14 years in public markets
- Founder of Brixton, former Chairman of West Point Gold, former Geologist for NovaGold Resources, Newmont Alaska and Encana Corporation
- Founder & CEO of Silver47 Exploration Corp
- Led financings totaling \$140M

CALE MOODIE, BSF, CPA, CA

CFO & DIRECTOR

- Founder of Brixton, former CFO of Underworld Resources
- Founder & CEO of Neptune Digital Assets Corp
- 16 years in public markets
- Involved in \$120M public company financings

MICHAEL RAPSCH

Senior Manager, Investor Relations

- +18 years experience in IR, Corporate Communications & Capital Markets
- Former Vice President, Corporate Communications of SilverCrest Metals
- President & Founder of Cologne Communications Corp.

IAN BALL, B.Com.

DIRECTOR

- Former President & CEO of Abitibi Royalties Inc.
- Former President of McEwen Mining Inc.

RANDALL THOMPSON (no relation to the CEO)

DIRECTOR

- COO of Imperial Metals Corp.
- 30 years experience in building and operating underground and open pit mines in Canada, Australia, Mid-East

PATRICK HIGHSMITH

DIRECTOR

- 30 years of international experience in roles with major companies such as Newmont, BHP, Rio Tinto
- Sold Timberline Resources to McEwen Mining serving as CEO
- Co-founder & Chairman of FireFox Gold

BRIXTON STRATEGY

Advancing its flagship Thorn Project in BC, Canada

Drilling for new discoveries of

- **Copper**
- **Gold**

Strategic investment by the World's largest miner

BHP

Monetizing non-core projects

- Hog Heaven Project: Ivanhoe Electric, option to 75%:

- **USD \$4.5M cash to Brixton** and **\$40M** in work; retain NSR

- Atlin Goldfields Project: Eldorado Gold, option to 100%:

eldorado gold

- **C\$8.1M cash to Brixton** and **\$5.35M** in work; retain NSR

WHY GOLD?

5

SOURCE: VISUAL CAPITALIST

While gold prices have reached record highs in 2024, gold producers' stocks are still far from their 2011 peaks.

- Record gold purchases by central banks signal gold's status as a safe haven amid economic uncertainty.
- Major gold producers are generating unprecedented free cash flow, driving M&A activity that benefits junior resource companies.
- Many junior mining companies are at historically low valuations, presenting opportunities for significant returns.
- The gold mining industry's challenge to sustain production growth makes it a strategic time for mergers and acquisitions.
- Analysts project further increases in gold prices due to inflation and geopolitical tensions, making this an opportune time to invest.

WHY COPPER?

COPPER DEMAND

Reaching net-zero emissions by 2050 demands volumes of copper humanity has never produced before, to be used in **electronics, wind and solar installations, nuclear facilities, and more.**

700 million tonnes
Total copper produced over the course of human history

1.4 billion tonnes
New copper needed to reach net zero by 2050

Source: Science Direct, The US Geological Studies, International Energy Agency

Over the next 26 years, the world will demand nearly twice the volume of copper the world has produced over the last 3000 years.

Without projects supply, gap will exceed 15Mt by 2035

$$\text{CuEq \%} = (\text{Cu \%} + (0.764486 * \text{Au g/t}) + (0.009134 * \text{Ag g/t}) + (0.000523 * \text{Mo ppm})) * 0.95$$

CAMP CREEK: PORPHYRY DISCOVERY

Copper Equivalent (CuEq) is calculated based on US\$ 4.02/lb Cu, US\$ 2105.6/oz Au, US\$ 25.16/oz Ag, \$US 20.99/lb Mo. These prices represent the approximate metal prices and calculations assume 95% metal recoveries.

$$\text{CuEq \%} = (\text{Cu \%} + (0.764486 * \text{Au g/t}) + (0.009134 * \text{Ag g/t}) + (0.000523 * \text{Mo ppm})) * 0.95$$

2023 CAMP CREEK: A BLOCK CAVE POTENTIAL TARGET

Camp Creek Cu-Porphyry Mineralization starts approximately 300m below the surface, making it a great block cave mining target

What is Block Cave Mining?

- Underground bulk tonnage mining
- Production rates of 30,000 – 140,000 tons per day
- Cost-effective for a large, deep orebody

SUMMARY

The largest mineral claim group in BC for Cu-Au porphyry Targets

Drill for discoveries of Copper and Gold

Strategic investment by the World's largest miner

BHP

Fully funded for 2025

Ivanhoe Electric is funding exploration expenditures at the Hog Heaven Project and cash payments to Brixton

Eldorado Gold is funding exploration expenditures at the Atlin Goldfields Project and cash payments to Brixton

MONETIZATION OF NON-CORE ASSETS

HOG HEAVEN (Montana) – Optioned to Ivanhoe Electric Inc (“IE”) Copper-Gold-Silver

- IE can earn 75% by meeting the following earn-in obligations: **USD \$4.5M cash and \$40M** in work over 11 years
- To date, USD\$ 2.5M cash payments to BBB made, and ~\$16M spent on Project
- Residual cash payments to BBB a non-dilutive contribution towards G&A

ATLIN GOLDFIELDS (BC) Optioned to Eldorado Gold (“ELD”)

- ELD can earn 100% by meeting the following earn-in obligations: **C\$1.1M cash and \$5.35M** in work over 5 years
- At end of option period, ELD right to exercise the option to acquire 100% ownership for **C\$7M** cash
- During option period, Brixton the Operator with ELD funding exploration
