

Full-Time Core Logger (Seasonal)

JOB DESCRIPTION

Brixton Metals Corporation is a publicly traded (TSXV: BBB) (OCTQB: BBBXF), Canadian mineral exploration company focused on the advancement of its **copper-gold-silver exploration projects**. Brixton Metals is focused on advancement at its Thorn Project.

We are always looking for talented, skilled individuals to join our team. We are currently seeking a seasonal Core Logger for May-October 2025.

RESPONSIBILITIES

- All aspects of core logging (including mineralization, alteration lithology) procedures, moving core boxes, analyzing and interpreting drill core, collecting photographs and following sampling protocols;
- Prepare sample submissions to assay laboratories following established QAQC procedures;
- Prepare quick logs of core;
- Participate in daily geologist team meetings to discuss properties of the drill core;
- Download and integrate logging data into database;
- Additional work in and around camp as required; and
- Demonstrate awareness and commitment to health, safety, community and environmental protection in keeping with Brixton Metals goals and objectives.

QUALIFICATIONS

- Eligible to work in Canada at time of application.
- Minimum B. Sc. Degree in Geological Sciences or equivalent.
- 1-3 years of relevant work experience in a similar role.
- Porphyry logging experience is preferred.
- Reliable with a strong work ethic.
- Cooperative team player.

ADDITIONAL INFORMATION

- Field work location (NW British Columbia) is a remote camp, only accessible by air.
- Must be able to lift/move up to 50lbs throughout a work shift.
- Rotational schedule during the field season is required.

HOW TO APPLY:
