

## **Project Geologist**

**(Seasonal – Haileybury/Cobalt, Ontario)**

### **JOB DESCRIPTION**

Brixton Metals Corporation is a publicly traded (TSXV: BBB) (OCTQB: BBBXF), Canadian mineral exploration company focused on the advancement of its **copper-gold-silver exploration projects**. Brixton wholly owns four exploration projects in BC, Ontario and Montana.

We are currently seeking a **Project Geologist** for February - March/April 2026 (anticipated) with possibility of extension.

### **RESPONSIBILITIES**

The duties and responsibilities of the **Project Geologist** include, but are not limited to, the following:

- Integrating and interpreting all geological/geochemical/geophysical data to assist with database management and map/section creation for reports, presentations, news releases, and website;
- Participating in drill hole and development planning;
- Collaborating with team members on target generation and ranking exploration priorities;
- Collaborating with team members to assist with data management requirements across various projects;
- All aspects of Core Logging procedures including data collection, analyzing and interpreting drill core, collecting photographs and following QAQC sampling protocols;
- Working with other geologists in the completion of computerized mapping and models;
- Preparing/writing internal and external reports, including assessment reports;
- Managing and providing technical support to field exploration staff;
- Conducting surface geological mapping and geochemical sampling;
- Preparing sample submissions to assay laboratories following established QAQC procedures;
- Training and overseeing junior level geologists and technicians, and core loggers;
- Demonstrate awareness and commitment to health, safety, community and environmental protection in keeping with Company goals and objectives; and
- Additional work in and around camp as required.

### **QUALIFICATIONS & SKILLS**

- Structurally controlled precious metals logging experience is preferred.
- Eligible to work in Canada at the time of application.
- B.Sc. Degree in Geological Sciences or equivalent.
- 5+ years of experience.
- Experience with QGIS, Leapfrog, and Microsoft software.
- Professional registration with **P.Geo. designation** (preferred).
- Valid driver's license.

- Cooperative with a strong ability to mentor.

#### **ADDITIONAL INFORMATION**

- Reporting to various field work locations (Cobalt, Ontario & surrounding areas).
- Must be able to lift/move up to 50lbs throughout a work shift.
- Ability to work in areas of extreme and difficult weather conditions.
- Personal outdoor work gear is required (i.e. warm clothing, steel-toed boots, rain gear, gloves/mittens, etc.) and is not provided by the Company. PPE (i.e. safety glasses, respirators and high-vis) is provided by the Company.
- Rotational schedule.
