BRIXTON METALS CORPORATION

(An Exploration Stage Company)

Notes to Condensed Consolidated Interim Financial Statements
Three months ended December 31, 2019 and 2018
(Unaudited – expressed in Canadian dollars)

1. Nature of operations and going concern:

Brixton Metals Corporation (“Brixton” or the “Company”) was incorporated under the Business Corporations Act of British Columbia on September 28, 2009. The Company is an exploration stage company and engages principally in the acquisition, exploration, and evaluation of mineral properties. The Company’s head office address is Suite 551 – 409 Granville Street, Vancouver, BC, V6C 1T2, Canada. The Company is listed on the TSX Venture Exchange (“TSX-V”) and trades under the symbol BBB.

These condensed consolidated interim financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and settle its obligations in the normal course of business.

The Company has a history of losses with no operating revenue and incurred a loss of \$1,555,688 for the three months ended December 31, 2019 (2018 - \$1,517,070). As at December 31, 2019, the Company has an accumulated deficit of \$36,865,902, cash of \$5,376,657 and working capital of \$5,676,842. The ability of the Company to carry out its planned business objectives is dependent on its ability to raise adequate financing from lenders, shareholders and other investors and/or achieve operating profitability and generate positive cash flows. There can be no assurances that the Company will continue to obtain the additional financial resources necessary and/or achieve profitability or positive cash flows. If the Company is unable to obtain adequate financing, the Company will be required to curtail operations, exploration, and evaluation activities.

During the period ended December 31, 2019, the Company completed financings of total gross proceeds of approximately \$2,209,404. The Company estimates it has sufficient funds to operate for the ensuing 12 months.

These condensed consolidated interim financial statements do not reflect adjustments, which could be material to the carrying values of assets and liabilities, which may be required should the Company be unable to continue as a going concern.

2. Significant accounting policies:

(a) Statement of compliance:

These condensed consolidated interim financial statements, including comparatives, have been prepared in accordance with International Accounts Standards (“IAS”) 34, “Interim Financial Reporting” using accounting policies consistent with International Financial Reporting Standards (“IFRS”), as issued by the International Accounting Standards Board and Interpretations issued by the International Financial Reporting Interpretations Committee (“IFRIC”).

Unless otherwise stated, amounts are expressed in Canadian dollars.

BRIXTON METALS CORPORATION

(An Exploration Stage Company)

Notes to Condensed Consolidated Interim Financial Statements
Three months ended December 31, 2019 and 2018
(Unaudited – expressed in Canadian dollars)

2. Significant accounting policies (continued):

(a) Statement of compliance (continued):

These condensed consolidated interim financial statements were authorized for issuance by the Board on February 28, 2020.

(b) Basis of consolidation:

These condensed consolidated interim financial statements include the accounts of the Company and its wholly owned subsidiary Brixton USA Corporation (“Brixton USA”). The financial statements of Brixton USA are included in the condensed consolidated interim financial statements from the date on which control was transferred to the Company. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. All significant intercompany accounts and transactions have been eliminated on consolidation.

(c) Critical accounting judgments and estimates:

The preparation of these condensed consolidated interim financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, and income and expenses. Although management uses historical experience and its best knowledge of the amount, events or actions to form the basis for judgments and estimates, actual results may differ from these estimates.

Estimates

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and further periods if the review affects both current and future periods. The most significant accounts that require estimates as the basis for determining the stated amounts include: impairment of exploration and evaluation assets; provision for environmental rehabilitation; inputs used in the valuation of share-based payments and accrual of refundable tax credits.

Share-based payments:

The Company uses the fair value-based method of accounting for stock options granted to employees and others as well as agent options issued on common share issuances. Under this method, the fair value of the stock options at the date of the grant, as determined using the Black-Scholes option pricing model, is recognized to expense over the vesting period. The fair value of agent options at the date of issuance, as determined using the Black-Scholes model, is recognized as share issuance costs, with the offsetting credit to share-based payments reserve. If the stock options or agent options are exercised, the proceeds are credited to share capital and the fair value of the options or agent options exercised is reclassified from share-based payments reserve to share capital.

BRIXTON METALS CORPORATION

(An Exploration Stage Company)

Notes to Condensed Consolidated Interim Financial Statements
Three months ended December 31, 2019 and 2018
(Unaudited – expressed in Canadian dollars)

2. Significant accounting policies (continued):

(c) Critical accounting judgments and estimates (continued):

Estimates (continued)

Exploration and evaluation assets:

The Company capitalizes mining property acquisition costs which are to be amortized when production is attained or the balance thereof written off should the property be disproven through exploration or abandoned. The carrying value of the Company's mineral property is reviewed by management at least annually, or whenever events or circumstances indicate that its carrying value may not be recovered. If impairment is determined to exist, a formal estimate of the recoverable amount is performed and an impairment loss is recognized to the extent that the carrying amount exceeds the recoverable amount. The recoverable amount of an asset is measured at fair value less costs to sell.

Environmental rehabilitation obligation:

The Company recognizes statutory, contractual or other legal obligations related to the retirement of its exploration and evaluation assets and its tangible long-lived assets when such obligations are incurred, if a reasonable estimate of fair value can be made. These obligations are measured initially at fair value and the resulting costs are capitalized to the carrying value of the related asset. In subsequent periods, the liability is adjusted for any changes in the amount or timing and for the discounting of the underlying future cash flows. The capitalized asset retirement cost is amortized to operations over the life of the asset.

Accrual of refundable mining tax credits

The provincial government of BC provides for a refundable tax on net qualified mining exploration expenditures incurred in BC. The credit is calculated as 20% of qualified mining exploration expenses. Management has estimated and accrued the likely refundable amount arising from expenditures incurred.

Judgments

Critical judgments exercised in applying accounting policies that have the most significant effect on the amounts recognized in the condensed consolidated interim financial statements are as follows:

Going concern:

Significant judgments are made in the Company's assessment of its ability to continue as a going concern as described in note 1.

BRIXTON METALS CORPORATION

(An Exploration Stage Company)

Notes to Condensed Consolidated Interim Financial Statements
Three months ended December 31, 2019 and 2018
(Unaudited – expressed in Canadian dollars)

3. Significant accounting policies:

The accounting policies used in the preparation of these condensed consolidated interim financial statements are consistent with those used in the preparation of the audited consolidated financial statements for the year ended September 30, 2019, except for the following:

IFRS 16 Leases

The Company adopted IFRS 16 *Leases* (“IFRS 16”) on October 1, 2019. The objective of the new standard is to eliminate the classification of leases as either operating or financing leases for a lessee and report all leases on the statement of financial position. The only exemption to this will be for leases that are one year or less in duration or for leases of assets with low values. Under IFRS 16 a lessee is required to recognize a right-of-use asset, representing its right to use the underlying asset, and a lease liability, representing its obligations to make lease payments. IFRS 16 also changes the nature of expenses relating to leases, as lease expenses previously recognized for operating leases are replaced with depreciation expense on capitalized right-of-use assets and finance or interest expense for the corresponding lease liabilities associated with the capitalized right-of-use leased assets.

As the Company’s leases are one year or less in duration, there was no impact on the Company’s results and financial position as a result of the adoption of the IFRS 16.

4. Capital management:

The Company’s objectives when managing capital are to safeguard the Company’s ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders, and to bring its mineral properties to commercial production.

The Company depends on external financing to fund its activities. The capital structure of the Company currently consists of common shares, stock options and share purchase warrants. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets, being mineral properties. In order to maintain or adjust the capital structure, the Company may issue new shares through private placements, or sell assets to fund operations. Management reviews its capital management strategy on a regular basis. The Company is not subject to externally imposed capital requirements.

The Company invests all capital that is surplus to its immediate operational needs in short-term, liquid and highly-rated financial instruments, such as cash and other short-term demand guaranteed deposits, all held with major financial institutions.

BRIXTON METALS CORPORATION

(An Exploration Stage Company)

Balance consists of:

	December 31, 2019	September 30, 2019
Thorn, BC, Canada	\$ 3,167,777	\$ 3,162,905
Langis, Ontario, Canada	481,622	482,991
Atlin, BC, Canada	1,280,803	1,280,803
Hog Heaven, Montana, USA	1,080,705	1,076,625
Total	\$ 6,010,907	\$ 6,003,324

Title to exploration and evaluation assets involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyance history characteristic of many exploration and evaluation assets. The Company has investigated title to its exploration and evaluation assets and to the best of its knowledge title to the assets is in good standing.

BRIXTON METALS CORPORATION

(An Exploration Stage Company)

Notes to Condensed Consolidated Interim Financial Statements
Three months ended December 31, 2019 and 2018
(Unaudited – expressed in Canadian dollars)

9. Exploration and evaluation assets (continued):

(a) Thorn, BC, Canada:

On February 26, 2013, the Company completed the acquisition of a 100% interest in the Thorn mineral property, located in the Sutlahine River area in northwestern British Columbia, from Rimfire Minerals Corporation for consideration of \$1,500,000 cash and the issuance of 7,000,000 common shares (valued at \$1,260,000). The property is subject to underlying net smelter returns royalties (“NSR”) ranging from nil to 3.5% with certain NSR buy-down rights. In addition to the royalties the Company must satisfy underlying obligations to an underlying agreement in respect of the property with Cangold Limited which requires the Company to issue 250,000 shares or make a one-time cash payment of \$1,000,000 upon commercial production.

Taku River Tlingit First Nations Agreement

On July 19, 2013, the Company entered into an exploration agreement with the Taku River Tlingit First Nation (“TRTFN”) under which TRTFN will consent to exploration activities and support the development of the Thorn project. In exchange, the Company shall pay an annual community contribution fee of 1.25% based on the Company's annual exploration budget and provide opportunities for local employment, training and contracting related to the project.

For the three months ended December 31, 2019, the Company has recognized a reclamation obligation of \$29,000 (September 30, 2019 - \$29,000). The undiscounted amount of estimated cash flows was estimated at \$52,000. The liability was estimated using an expected life of 27 years and a net risk-free discount rate of 2%.

(b) Langis, Ontario, Canada:

On February 2, 2016, the Company acquired a 100% interest in the Langis silver mine located in the Cobalt silver mining camp of Northeastern Ontario from Canagco Mining Corp. (“Canagco”) for consideration of 3,242,500 common shares (valued at \$226,975) and a cash payment of \$55,000. The Company also paid a finder's fee of \$6,887 and 106,351 common shares valued at \$9,572. The property is subject to underlying NSR ranging from nil to 2.0% of net smelter returns with certain NSR buy-down rights.

On April 13, 2016, the Company acquired additional mineral rights related to the Langis property in exchange for consideration of \$5,000 and 250,000 common shares (valued at \$107,500). The property is subject to 2% NSR with certain NSR buy-down rights.

On April 19, 2016, the Company acquired a 100% interest in the past-producing Hudson Bay silver mine in the Cobalt silver mining camp of Ontario through the issuance of 27,300 common shares (valued at \$27,300) and a cash payment of \$1,000.

On July 7, 2016, the Company entered into an agreement with a vendor whereby the Company acquired additional mining rights in the Langis property through the issuance of 10,000 common shares (valued at \$8,300) and a cash payment of \$3,000. The property is subject to 2% NSR with certain NSR buy-down rights.

BRIXTON METALS CORPORATION

(An Exploration Stage Company)

Notes to Condensed Consolidated Interim Financial Statements
Three months ended December 31, 2019 and 2018
(Unaudited – expressed in Canadian dollars)

9. Exploration and evaluation assets (continued):

(b) Langis, Ontario, Canada (continued):

During fiscal 2017, the Company completed an agreement with Agnico Eagle Mines Ltd. (“Agnico Eagle”) and acquired a 100% interest over certain additional property adjacent to the Langis property for consideration of cash paid of \$200,000. Agnico Eagle retains a 2% NSR, of which the Company may purchase 1% for \$500,000.

On June 7, 2017, the Company entered into an agreement with First Cobalt Corp. (“First Cobalt”) to sell a 100% interest in certain of the Company’s non-core mineral claims located in the Cobalt silver mining camp in Ontario for consideration of \$325,000 cash (received). The Company paid a \$16,250 finder’s fee in connection with this transaction.

For the three months ended December 31, 2019, the Company has recognized a reclamation obligation of \$30,007 (September 30, 2019 - \$30,007). The undiscounted amount of estimated cash flows was estimated at \$56,000. The liability was estimated using an expected life of 28 years and a net risk-free discount rate of 2%.

Timiskaming First Nations Agreement

On May 2, 2016, the Company entered into an exploration agreement with Timiskaming First Nation (“TFN”), under which TFN will consent to exploration activities and support the development of the Company’s Langis project and other cobalt lands, in exchange for the Company paying an annual community contribution of 1.25% based on the Company’s annual exploration budget and providing opportunities for local employment, training and contracting related to the project.

(c) Atlin, BC, Canada:

On January 25, 2017, the Company entered into an option agreement with two third parties to acquire a 100% interest in the Eagle property located in Atlin, British Columbia, for consideration of \$65,000 (\$40,000 paid) and the issuance of 115,000 common shares (total 75,000 shares issued valued at \$22,800), payable over a three year period. The vendors will retain a 2% NSR, of which the Company may purchase 1% for \$500,000.

On March 14, 2017, the Company entered into an agreement and acquired a 100% interest in additional mineral claims located in Atlin, British Columbia, by paying \$13,000 and issuing 20,000 common shares (valued at \$10,600). The property is subject to an NSR ranging from 0.2% to 0.5% with certain NSR buy-down rights.

During fiscal 2018, the Company entered into a series of separate asset purchase and sale agreements to acquire a 100% interest in certain mineral claims including the McKee, Otter, Yellowjacket and Spruce group of properties located in the Atlin mining district in British Columbia. In consideration, the Company paid \$70,000 and issued 5,060,000 common shares, valued at \$1,082,000. As part of the acquisition, the Company acquired equipment valued at \$69,825. The properties are subject to an NSR ranging from 1% to 1.5% with certain NSR buy-down rights.

The fair values of the finders' warrants are estimated using the Black-Scholes option pricing model. The weighted average fair value per finders' warrant granted during the three months ended December 31, 2019 was \$0.11 (2018 - \$0.11). The following weighted average assumptions used in the calculation of fair value are as follows:

	December 31, 2019	December 31, 2018
Risk-free interest rate	1.64%	1.88%
Expected volatility	106.48%	116.45%
Expected life of options	2.00 years	3.00 years
Expected dividend yield	Nil	Nil
Forfeiture rate	Nil	Nil

(d) Share-based payments:

The Board of Directors of the Company has approved a stock plan (the "Plan"), whereby the number of shares issuable under the Plan is limited to 10% of the issued and outstanding shares of the Company. The exercise price of each option shall not be less than the discounted market price of the Company's shares as calculated on the date of grant. An option's maximum term is ten years and shall vest as determined by the Board of Directors. Options granted to investor relations consultants shall vest in stages over 12 months with no more than one-quarter of options vesting in any three-month period.

The following tables reflects the continuity of stock options for the three months ended December 31, 2019 and 2018:

Reserved for options (note 12(d))	12,719,000
Shares reserved for issuance (fully diluted) at December 31, 2019	187,693,442

13. Segmented information:

As at December 31, 2019 the Company currently operates in one segment being the acquisition and exploration and evaluation of resource assets located in British Columbia and Ontario, Canada, and Montana, USA, as described in note 9.

14. Financial instruments and risk management:

Financial instruments

The Company's cash is classified at amortized cost. The carrying values of receivables and accounts payable and accrued liabilities, and due to related parties approximate their fair values due to their short terms to maturity.

Financial risk factors

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

(a) Credit risk:

Credit risk is the risk of loss associated with a counter party's inability to fulfill its payment obligations. The Company's receivables consist of amounts due from a Canadian government agency, and cash and restricted cash are held with a large and stable Canadian chartered bank. Management believes that credit risk related to these amounts is nominal.

(b) Liquidity risk:

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet its liabilities as they fall due. As of December 31, 2019, the Company had cash of \$5,376,657 to settle current liabilities of \$469,099. The Company has sufficient cash to settle current liabilities.

(c) Market risk:

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices.

BRIXTON METALS CORPORATION

(An Exploration Stage Company)

Notes to Condensed Consolidated Interim Financial Statements
Three months ended December 31, 2019 and 2018
(Unaudited – expressed in Canadian dollars)

14. Financial instruments and risk management (continued):

Financial risk factors (continued)

(c) Market risk (continued):

(i) Interest rate risk:

The Company has cash balances and no interest-bearing debt. The Company's current policy is to keep larger cash balances invested in investment-grade short-term demand deposit certificates issued by its banking institutions. The Company is nominally exposed to interest rate risk.

(ii) Foreign currency risk:

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign currency rates. As at December 31, 2019, the Company had nominal cash on hand and payables denominated in US dollars.

(iii) Price risk:

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices of gold and other precious and base metals, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.

15. Subsequent events:

On January 7, 2020, the Company issued 350,000 shares to Surge Exploration Inc. for 100% title on certain claims located in northwest British Columbia as part of their Thorn project.

On January 7, 2020, the Company amended an agreement with respect to their Eagle property on the Atlin project, wherein the third-year payments of \$25,000 cash and 40,000 common shares were amended to a total of 165,000 common shares. On January 14, 2020, the Company issued the 165,000 common shares, resulting in Brixton fulfilling all the requirements under the agreement and receiving 100% title on these claims.
