

JOB POSTING

JOB DESCRIPTION

Job Title: Core Cutter / Geological Technician
Location: Thorn Project, North West British Columbia
Duration: Anticipated Spring 2021 - Summer 2021 (to be determined)

ORGANIZATIONAL RELATIONSHIP

The Core Cutter / Geological Technician position is located at Brixton Metal's Thorn Property located in North West British Columbia and reports directly to the Senior Project Geologist or designate.

RESPONSIBILITIES

- Assisting with all aspects of geotechnical core logging including and not limited to moving core boxes, analyzing and interpreting drill core, collecting photographs and following sampling protocols.
- Prepare sample submissions to assay laboratories following established QAQC procedures.
- Operate a core saw to split drill core for sampling.
- Assist with the collection of rock, silt and soil sampling in challenging terrain.
- Additional work in and around camp as required.
- Demonstrate awareness and commitment to health, safety, community and environmental protection in keeping with Brixton Metals goals and objectives.

QUALIFICATIONS

- Previous experience in a similar role is preferred and Geological Technology Certificate or Diploma is ideal;
- Willing to provide training for the right candidate;
- Role will be adapted based on previous experience and aptitude;
- Preference for candidate located in Whitehorse, YT or Atlin, BC & area.

ADDITIONAL INFORMATION

- Work location is a remote camp only accessible by air.
- Must be able to lift/move up to 50lbs throughout a work shift.
- Must be comfortable with helicopter transportation.
- Ability to work in areas of extreme and difficult weather conditions.
- Ability to share living accommodations and facilities with the team.
- Personal outdoor work gear is required (i.e. warm clothing, steel-toed boots, rain gear, sleeping bag, pillow, etc.), and is not provided by the Company.
