

JOB POSTING

JOB DESCRIPTION

Job Title: Soil Sampler
Location: Thorn Project, North West British Columbia
Duration: Anticipated Spring 2021 - Summer 2021 (to be determined)

ORGANIZATIONAL RELATIONSHIP

The Soil Sampler position is located at Brixton Metal's Thorn Property located in North West British Columbia and reports directly to the Senior Project Geologist or designate.

RESPONSIBILITIES

- Collection of soil, silt, stream and/or rock samples for regional geochemical survey (training provided).
- Follow sampling protocols and describing samples using a data collection application.
- Preparing/labelling samples for shipment and analysis.
- Heavy lifting (moving core, other samples).
- Extensive hiking in rugged to semi-rugged terrain; some areas require helicopter access.
- Progress reporting to the Senior Project Geologist or designate each day.
- Additional work in and around camp, as needed.

QUALIFICATIONS

- Must be physically fit and able to hike in rugged to semi-rugged terrain with up to 50lbs of samples each day.
- May be suitable for experienced climber/mountaineer.
- First Aid certification (an asset).
- Previous knowledge of Microsoft Office Suite (Excel, Access, Word), ArcMap, GPS and a Compass (an asset).
- Preference for candidate located in Whitehorse, YT or Atlin, BC & area.

ADDITIONAL INFORMATION

- Work location is a remote camp only accessible by air.
- Must be able to lift/move up to 50lbs throughout a work shift.
- Must be comfortable with helicopter transportation.
- Ability to work in areas of extreme and difficult weather conditions.
- Ability to share living accommodations and facilities with the team.

- Personal outdoor work gear is required (i.e. warm clothing, waterproof hiking boots, rain gear, sleeping bag, pillow, etc.), and is not provided by the Company.
